

## PROTECT CHILDREN FROM ENVIRONMENTAL THREATS

### Help children breathe easier

- Don't smoke or let others smoke near your kids
- Keep your home and pets as clean as possible. Dust, mold, certain insects, and pet dander can trigger asthma attacks and allergies.
- Limit outdoor activity when air pollution is bad such as ozone alert days

### Protect children from lead poisoning

- Wash children's hands before eating and wash bottles, pacifiers, and toys often
- Wash floors and window sills to protect kids from dust and peeling paint contaminated with lead - especially in older homes
- Run the cold water for 30 seconds to flush lead from pipes
- Get kids tested for lead - check with your doctor

### Protect children from carbon monoxide (CO) poisoning

- Have fuel-burning appliances, furnace flues and chimneys checked once a year
- Never use gas ovens or burners for heat and never use barbeques indoors
- Never sleep in rooms with unvented gas or kerosene space heaters
- Don't idle cars or lawnmowers in the garage
- Install a UL approved CO detector in sleeping areas

### Keep pesticides and other toxic chemicals away from children

- Put food and trash away in closed containers to keep pests from coming into your home
- Don't use pesticides if you don't have to - look for alternatives
- Read product labels and follow directions
- Use bait & traps instead of bug sprays when you can and put where kids can't get them
- Store where kids can't reach them and never put in other containers that kids can mistake for food or drink
- Keep children, toys & pets away when using pesticides and don't let them play in fields, orchards and gardens after pesticides have been used
- Wash fruits and vegetables under running water before eating

### Protect children from too much sun

- Have them wear hats, sunglasses, and protective clothing
- Use sunscreen on kids over 6 months and keep infants out of the sun
- Keep them out of the mid-day sun - the sun is most intense between 10 and 4

### Safeguard them from high levels of radon

- Test your home for radon with a home test kit  
Call your state radon office if radon level is 4 pCi/L or higher

#### Get involved
